Parts&Vendors Parts&Vendors is a personal parts list manager and vendor database that helps keep track of all the components that go into a new product design.. This is a terrestrial nocturnal rat that eats plants and insects It breeds throughout the year, but few individuals survive for more than a year.. Its habitat is lowland forests up to an altitude of 1,500 m (5,000 ft) It is a medium-sized rice rat with soft fur, reddish to brownish on the overparts and whitish on the underparts.. The species was first described in 1891 by Joel Asaph Allen It was considered to be conspecific with what is now *Hylaeamys megacephalus* from the 1960s until the 1980s and was then placed in the genus *Oryzomys* until 2006, when it was moved to its current genus..  
“Information is the currency of democracy” –Thomas Jefferson  
Throughout the 1950s and into the early 1960s, the American people came to know the truth that was out there, the truth about the extraterrestrial origin of the flying saucers that traversed our skies on a continual basis.. com
